Education

System Analysis

Jan. 2000 – Jan. 2002

Graduate studies in System Analysis from PUC - Rio de Janeiro Catholic University

Computer Programmer

Jan. 1998 – Jan. 1999

Associate degree in Computer Programming from PUC - Rio de Janeiro Catholic University

Civil Engineering

Mar. 1989 – Aug. 1995

Bachelor of Civil Engineering from UERJ – Rio de Janeiro State University

Certifications

Sitecore CMS Website .Net Developer

Aug. 2011

Certified Sitecore CMS Website .Net Developer

Sitecore CMS Advanced .Net Developer

Aug. 2011

Certified Sitecore CMS Advanced .Net Developer

Microsoft ASP.NET Certified Professional

Mar. 2005

Microsoft ASP.NET and C# Certified Professional

Url: <http://www.andrecoimbravillela.com>

Client: [Teksystems Global Services](#)

Position: Software Developer

Project: TEKSYSTEMS WEBSITE REDESIGN

Period: Sept. 2011 to July 2015

Technologies used:

- ASP.NET using C# 4.0/4.5
- **Sitecore 6.4/6.6/7.2**
- MS SQL Server 2008 R2
- JavaScript, JQuery
- CSS2.1/CSS3
- HTML 4.1 / 5
- Agile methodology, and Scrum
- Slow Cheetah transformation add-in for Visual Studio
- Lucene Search
- **Target Browsers:** IE8/9/10 , Chrome, Firefox, Safari

Activities:

- Development of content components and controls to be used on the TEKsystems web site : <http://www.teksystems.com>.
- Development of web page layouts and layout components, Sitecore templates.
- Development of site search using Lucene Search
- Styling layout components using CSS2.1/3 and JQuery following the directions of the Client's Design department.
- Integrating Google maps using API V3 for maps and directions, Office Locations search, Reverse Geolocation.
- Developed website enhancements.

Client: [Bank of America](#)

Position: Software Developer

Project: ICM Remediation

Period: June 2011 – Aug. 2011

Technologies used:

- MS SQL Server 2008 R2
- SSRS for reports and charts
- TSQL used on Stored Procedures
- Agile methodology, and Scrum

Activities:

- Member of the team that was responsible for the design and development of the reports that were available on the system.
- Design and development of Stored Procedures that were used as data source for the reports using TSQL 2008.

André Coimbra Villela

Cell. : (514) 661-6506

Email: acvillela@gmail.com

Url: <http://www.andrecoimbravillela.com>

Client: www.allscripts.com

Position: Software Developer

Project: Report Conversion

Period: Apr. 2011 to May 2011

Technologies used:

- MS SQL Server 2008 R2
- TSQL used on Stored Procedures
- Crystal Reports 2005
- Agile methodology, and Scrum

Activities:

As a database developer I integrated the team responsible for the conversion of reports, from Actuate to Crystal Reports 2008.

Client: Rochester University

Position: Software Developer

Project: Extending web services to control Hospital and Research donations

Period: Jan.2011 – Mar. 2011

Technologies used:

- Visual Studio 2008
- C#
- Oracle 10g / PLSQL used on Stored Procedures
- Transaction script pattern
- Agile methodology, and Scrum

Activities:

- Member of the team that was responsible for designing and implementing the new enhancements (UI and Database), to comply with all new business rules and requirements.
- Development of new packages (PLSQL) and maintenance of the old ones.
- Performed maintenance on various parts of the application.

Client: Cooper Tires

Project: International Certification Systems

Position: Software Developer

Technologies used:

- Visual Studio 2005
- Visual Basic.Net
- Oracle 10g / PLSQL used on Stored Procedures

- MVP as design pattern
- Microsoft Enterprise Library
- Agile methodology, and Scrum

Activities:

- Development of all functionalities on the application was done using agile software development process and Scrum methodology.
- Developer responsible for the design and implementation of the database layer in this application.
- Wrote all the Oracle packages that are being used on the system.
- Performed maintenance on the Reports that were developed using Crystal Reports.
- Performed maintenance on various parts of the application.

Client: TransCanada

Project: Collection of applications and services for a movement of utility company

Position: Software Developer

Period: Sept. 2009 - June 2010

Technologies used:

- Visual Studio 2008 using C#
- Visual Basic.NET
- Watin - UI Test, Unit Test and Fit Test
- WPF (Oil Pumps)
- WCF
- MVP as design Pattern
- Microsoft Enterprise Library
- Agile methodology and scrum

Activities:

- Developed new functionalities and performed the maintenance on the applications using Agile software development process and Scrum methodology.
- Worked with pair programming and Test Driven Development techniques during the development and using also refactoring process to ensure maximum quality during the development process.
- Used WPF on the development of new functionalities.
- Implemented new functionalities on system by using WCF as a communication method between the presentation and database layers.
- Performed maintenance on various parts of the system, fixing bugs and adding code when the story required so.
- Re-factored code following the Clean Code principals using ReSharper.
- Performed Database Maintenance updating SQL Scripts.
- Developed UI Automated Test third party tool named Watin Test Recorder.
- Developed, ran and maintained UI Test, Unit Test and Fit Test.
- Performed System Deployment into various environments such as project environments and production environments.
